A message from President and CEO Steve Henry:

Dear Independent Hardware Store and Lumberyard Dealers:

Achieving independent hardware store and lumberyard dealer profitability has been House-Hasson Hardware's company-wide focus from its founding in 1906 through this moment.

Accomplishing dealer profitability takes a distribution team working daily to provide dealers with prices, service, responsiveness, and support that helps them in every way possible to make, or surpass, their margins.

Dealer profitability. That's our focus, for you. That's why this Hasson family-owned company is today America's largest independent regional hardware distributor.

If you're already a House-Hasson customer, we thank you for your confidence in us. If you're exploring House-Hasson as your product source, we'd welcome the opportunity to show you what we can do for you and your business.

Our business depends on your business being successful. That's the partnership that benefited dealers for more than a century.

Sincerely,

Steve Henry
President & CEO
